These are candies for your animals, they will love it

7

Salt Therapy Products

Salt therapy is like "a doctor in your house"

Everything under one roof:

From the piece of stone to a pack of healthiest food salt

Indus Valley Crafts is a vertically integrated manufacturer and exporter of High Quality Right Price Himalayan Salt Products. This means that we've consolidated all stages of production under one roof at our downtown Multan, Pakistan factory — from the piece of stone to a piece of art & other organic food salts and wellness products.

Ultimately it is vertical integration which, by cutting out the middleman, allows the company to be sweatshop free. Given that no outsourcing to local or outside sweatshops occurs, the process is time efficient and the company can respond at breakneck speed to demand. This enables us to be competitive within the global market.

Finally, vertical integration means that we can supply the highest-quality product on the market. Because all our products are manufactured on site, we have superior quality control. We have the freedom to make changes and improvements to our products without the delays experienced by companies that outsource.

That's how we bring our customers the Himalayan Salt Products they love. In the end, our goal is to provide a positive experience to everyone touched by our business process, from a piece of Himalayan salt rock right through to a consumer.

Positive & Safe workplace: We offer these as a matter of policy, not only because we care about our workers, but also because we understand that a positive work environment is a more productive one.

*every great dish deserves the **perfect** salt*

Spectrum of natural colors:

HUES OF PINK

CRYSTAL WHITE & SNOW WHITE

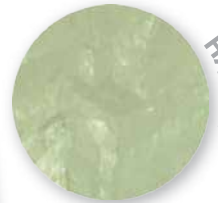

DARK PINK

GREY

HALITE

BLACK

ORANGE

LIGHT GREEN

Spectrum of natural colors

Watch out for dull opaqueness common to salt crystal mined elsewhere.

Coloring varies according to mineral contents. Himalayan salt crystal occurs in a range of colors including white, hues of pink, dark pink, many shades of orange, grey, light green and orange as well.

250 million years in the making, the Himalayan salt crystal is mined 650 meter below the earth. Evolved from an ancient sea, the spectrum of natural colors is formed by the fusion of iron, potassium, magnesium and other minerals. Fossilized elements and variety in the crystal structure ensure that each salt produced by Indus Valley Crafts™ has special taste.

Himalayan Salt is pre-pollution and without environmental impact. It is absolutely pristine, purest, totally natural, unrefined, cleanest and most complete salt available on earth. In minerals contents, it is identical to the ancient primal ocean having all the minerals and trace elements our body needs. These natural minerals are identical to the minerals in which our bodies have evolved with and are also originally found existing in the primal ocean.

Himalayan Bath & Massage Salts

MINED IN THE FOOTHILLS OF THE HIMALAYAS!
Himalayan salt crystals have a much higher mineral content than Dead Sea salt. Locked within the crystals are the same 84 minerals as found in the blood that can be readily and easily absorbed and metabolized by your body. A Himalayan Salt bath will support the natural regeneration of the skin, leaving it feeling nourished, soft and well-balanced.

Unleashing the bodies natural healing power with Himalayan Crystal Salt. In many parts of the world Himalayan salt is used to detoxify, neutralize skin impurities, relieve sore muscles and lift your spirits. It is completely unrefined, natural, 100% pure, and environmentally safe with no Artificial Additives, Preservatives, Flavorings and Colors. It comes to you in its raw, natural form.

Salt harvested from the Himalayan Mountains is unlike any other sea salt, unique in both its majestic beauty and in the benefits it provides. When you soak in a salt or "brine" bath, as it is also called, the minerals and nutrients inherent in the salt are delivered to your cells in the form of "ions", making it easier for your body to absorb them and utilize them.

Salt Therapy Products

Himalayan salt is powerful. This naturally occurring substance has been proven to have a wide range of health benefits including the reduction of inflammation and elimination of yeast, bacteria and other micro-organisms whose presence in the body can lead to respiratory and sinus infections. The salt has long been successful as ancient Europeans were known to visit natural caves filled with the healing salt just to breathe in the air. Now, artificial Himalayan salt caves are being built in spas to give the modern world access to those benefits.

But you don't need to travel to some far-off, expensive spa to reap the effects. Now, you can get the breathing benefits of Himalayan salt in our **all-natural inhaler, sinus cleaner neti pots and detoxers.**

Quality Policy

We are guided by the following values:

- Relentless focus on quality and buyer satisfaction
- Caring for people in our company and our community
- Caring for the planet by reducing the environmental impact of our manufacturing activities

Indus Valley Crafts is committed to satisfy its customers with high-value error-free high quality Himalayan salt products on time and every time. It is the vision of Indus Valley Crafts to be a world class leader in the field of Crystal Salt products manufacturing. This vision will be met by providing products that will consistently exceeds the expectations and meets the specifications of our customers.

Involving all our members and associates in an effort to continually improve the value of our products, processes and services. This added value will be realized through our ongoing commitment to the training and development of our greatest resource, our people. Enabling our work force to build strong partnership.

We are committed to continually keep on improving the effectiveness of our Quality System, while ensuring

it remains compliant to the ISO 2200 and ISO 9001:2008 Standard.

Company objectives will be routinely reviewed, to ensure they reflect the evolving needs of Indus Valley Crafts, and that they continue to satisfy our customer's requirements.

Food Safety Policy:

Indus Valley Crafts is committed to providing its customers with Food salt products which are prepared according to food safety and hygiene principles using the latest state-of-the-art technologies ensuring food safety awareness and strictly adhering to current good manufacturing practices.

Our team members not only keep ourselves abreast with in-house continuous training to learn what is new in the industry but we also make sure that the latest trends in the field of food salt manufacturing is designed, generated and continuously monitored at Indus Valley Crafts for others to follow.

Certifications & Accreditations

As the international trade develops rapidly, in order to adapt to the internationalised trend of product and capital movement, our company posses certification of **ISO 2200 & ISO-9001:2008** Quality Management System, which is authorised all over the world. The certification provides a systemic structure for the company to improve its management and make the products and business in conformity with our expectation.

Out manufacturing facility is FDA approved.

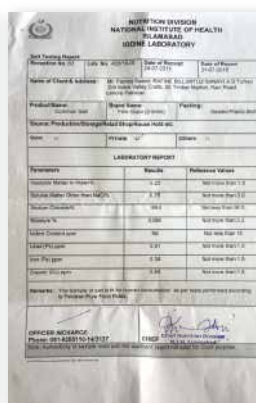

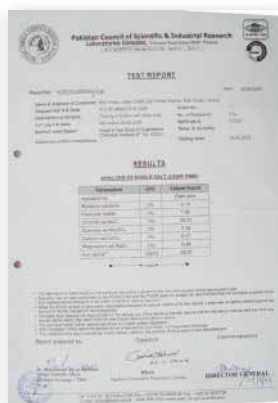

Most of product has relevant certifications like all

those products that has electrical parts installed are **CE, UL & RoHS certified.**

Our food items are **HACCP, Halal & Koshar* certified.**

For quality maintenance our food salts pass through rigorous process of lab testing on regular basis. These test are done from accredited govt. labs such as **PCSIR Laboratory & National Institute of Health.**

Laboratory reports can also be obtained on demand - by our customer.

* As of the time of printing of this catalogue, certification is in process. Expected to be certified by the end of this quarter.

Why Us?

We enjoy making quality products. Quality is not just a fancy word for us; it's an approach, a life style of our company knitted in the very fabric of our company culture - we are in it from top down, bottom up. Quality is not just in our talks or sayings or words. It's practically being implemented by each and every employee of our company.

We do not concentrate on making profits rather we take every measure to ensure that we have happy customers. At every step of order processing right from the customer inquiry to the delivery of orders and even after that, we stand behind our products. If any defect and quality issue arises – though a very rare phenomena – we happily replace or refund defective items. We feel honored by earning customer's trust.

Here is how we differ from other salt products suppliers:

1- Best Prices - cost controls: We do not cut cost by just buying cheap or sub-standard raw materials rather we cut costs through process control. We never stop improving production process and applying new methods to improve our work force efficiencies thus reducing final cost of production.

2- Quality control: Strict quality controls enable us to produce best salt products in the world. Our products quality is 2nd to none at fair prices. Our expert staff monitors every step of production starting even before the start of production process - right from the purchase of raw materials to the shipment of order. We have 50+ check points in the order processing and production of salt lamps.

3- Quick on time deliveries: We accept order just to match our production capacities and enjoy producing quality products. Charge fairly and do not jump into mass production of sub-standards or no-standards products. We always keep large quantities of raw materials at hand that enable us fast turnover time and ontime deliveries..

4- ISO 22000 certified: We are ISO 2200 Certified and Accredited Company by world's most reputable certifying authority "QA TECHNIC" who are partners of DGA Germany. Our ISO 22000 certificate number is QA/PK/22000/0001.

5- ISO 9001 certified: We are ISO 9001 Certified and Accredited Company by world's most reputable certifying authority "BUREAU VARITAS". Our ISO 9001 certificate number is PAK000101.

6- Online marketplaces membership holders: We are member of various online marketplaces.

7- Verified company by global verification service: You are not dealing with a ghost company. We are verified company by VeriSign - www.verisign.com.

8- Member of LCCI: We are member of LCCI (Lahore Chamber of Commerce and Industry).

9- We use premium salt: With salt lamps, cheaper is definitely not better. Beware of low quality salt used in the making, rusty hardware and cheap parts. We use premium salt, selected from different mines in "Salt Range" of Himalayan Mountains, according to the specific requirements for the making of each salt item.

10- Knowledgeable , Experience & Professional management: We have 5 MBAs in our management team. Probabelly the only compnay in salt lamps manufacturing business in Pakistan with so many MBAs. Our other managerial staff is also highly qualified.

11- E-commerce ready products: Our products are ecommerce ready. We are exclusive supplier of one of the top sellers in online salt lamp sales in USA. We ship so well packed salt products that they just affix shipping label on the items boxes and ship them to all 50 states of USA and Canda as well. And they are leader at eBay.com and Amazon.com marketplaces in salt lamps sales.

12- CAD/CAM Company: We use Computer Added Designing (CAD) and Computer Added Manufacturing (CAM) technologies to add to our product development and manufacturing process. This is very rare in Himalayan salt industry.

13- ZohoCRM: We use world best software "ZohoCRM" to manage our customer's sales leads and sales process.

14- No child labor: We do not employee childrens at our factories.

15- Favorable terms: We offer favorable terms of business.

16- Customers around the globe: We have customers around the globe in 4 cotenants. Our vast and deep knowledge of various markets is very helpful to our customer. On demand we may produce references for your satisfaction.

17- Improve your bottom line: From us you will get products with zero defects which in return improve your business bottom line – the profits.

We are expert in eCommerce sales:

- Our wealth of our knowledge in Himalayan Salt business, is beneficial for not just importers world-wide but also for wholesales, salt products distribution, retailers at both brick and mortar stores and online sellers as well.

- We are specialized in ecommerce retail specially at B2C and C2C retail marketplaces like **Amazon.com** and **eBay.com**.

- Our team of experts are very knowledgeable in "**Salt products retail website sales**" and "after sales services" and you can consult our team for professional advise.

- We can guide you that, how can you move your product online using drop shipping concepts.

Our Guarantee!

We use premium salt selected according to the specific requirements for the making of our salt items. Our premium salt is mined from different mines in the "Salt Range" in Himalayan mountains.

Himalayan salt crystal occurs in a range of colors including white, pink, peach, apricot, many shades of orange and red as well.

We are not the cheapest, nor the most expensive; we are, however, the best – guaranteed.
